

Common Advanced Placement Chemistry Texts

Listed below are commonly used AP Chemistry text. Each list text name, authors, publisher and ISBN for the editions that I have. They may not be the newest edition. If I know that they are the latest edition I will note that. They are not listed in any particular order. I have used various editions of #2, the Masterton text for thirty years. If I am around long enough for another adoption I would select #1, Brown, LeMay. This is strictly my opinion.
