

Study Skills – Mr. Hendricks – I-114

Students will improve their study skills by keeping their student handbook planner up-to-date each and every day for each and every class.

Students will increase their grades in every class period by printing their SIS grades and bringing homework from those classes that work is not done in.

Students will make up classes from the past that they did not pass by doing a credit recovery packet.

Students will participate in study skills lessons and show their competency in those skills by completing various tasks or having interactions with teachers, other students, parents, or others.

Students will increase the reading comprehension by reading a book of their choice and writing summaries and thought responses about the book.
